AND CARBON NANOTUBE TRANSFER BODY

RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the October 17, 2007 Election of Species Requirement, Applicants
provisionally elect Species I, Figures 1a-1e, corresponding to claims 18-36, with traverse.

It is respectfully submitted that the subject matter of all species is sufficiently related
that a thorough search for the subject matter of any one species would encompass a search for
the subject matter of the remaining species. Thus, it is respectfully submitted that the search
and examination of the entire application could be made without serious burden. See MPEP
§803 in which it is stated that "if the search and examination of an entire application can be
made without serious burden, the examiner must examine it on the merits, even though it
includes claims to independent or distinct inventions" (emphasis added). It is respectfully
submitted that this policy should apply in the present application in order to avoid
unnecessary delay and expense to Applicants and duplicative examination by the Patent
Office.
